

Enclosure Residents

Living

There are unique qualities about the enclosure residents that separate it from other communities of practice. Its systems are unique and are particularly technologically based.

Proper dress within the enclosure is essential. This composes of extravagant gowns, some of which change color. Faces are either painted or masked over. Wigs are also a major part of the dress code.

Transportation is made easy through giant Ped Belts. The Ped Belts enable residents travel anywhere throughout the city. This is pollution free and simple to use.

There are many places to travel within the enclosure. The main place is Oregon City but there are additional cities in the enclosure as well. Oregon City's closest neighboring cities are Alaska City and Tokyo city which lie just to the north and west. The major cities within the enclosure are connected through a series of tunnels. This creates a star like topology which interconnects all the cities. Travel within the web structure is permitted. However, to ensure proper sanitation standards, travel outside the enclosure is not allowed.

Recreation

Enclosures around the globe are home to numerous recreational activities. Shasta Game Park, located inside Oregon City, offers residents a retreat from the stresses of everyday life.

Residents can hop from buzzing electronic boxes to bump cars or laughing booths. For those residents seeking more heart pumping excitement there are stimulators where one

can pilot rockets or submarines, go breeze tripping, or play electro ball.

There are chemmie dispensers located throughout the game park. Residents can enjoy swallowing a number of chemmies, including steaming hot narco. Residents are given a capsule of Eraser so they can enjoy their night worry free.

For those residents wanting a mind shattering end of the day collective eros session, they can climb into a love booth at one of the ten Eros Parlors. From there you are in control, you can lay back, adjust the gauge and have the visionary delight your body desires.

The Mating Ritual

It should be considered that it is quite vulgar to discuss the mating ritual, even as a field of scholastic study. Sometimes two people feel they would make a logical pairing so they perform the mating ritual. However, performance of the mating ritual rarely leads to the final stage. The following are the complete stages in the mating ritual:

1. A Casual Glance
2. Momentary Eye Contact
3. Five Second Stare
4. Nod of approval
5. Casual Wave
6. Casual Conversation
7. Name Exchange
8. History Exchange
9. Ten Second Stare
10. Touching of Hands
11. Chin licking
12. Consummatio
